1           **NOTICE OF MOTION AND MOTION FOR PRELIMINARY APPROVAL OF CLASS**  
 2           **ACTION SETTLEMENT AND APPROVAL OF NOTICE TO CLASS OF**  
 3           **SETTLEMENT**

4           TO ALL PARTIES AND THEIR COUNSEL OF RECORD:

5           PLEASE TAKE NOTICE that on January 24, 2018, at 2:00 pm, at the United States  
 6           District Court of the Northern District of California, San Jose Division, before the Honorable  
 7           Lucy Koh, Plaintiffs Charles Des Roches, Sylvia Meyer, and Gayle Tamler Greco (collectively,  
 8           “Plaintiffs”), individually and on behalf of those similarly situated, will and hereby do move for  
 9           preliminary approval of the settlement of the above-captioned class action, and for approval of  
 notice to the Class of the settlement, pursuant to Federal Rule of Civil Procedure 23(e).

10          Plaintiffs respectfully seek an order preliminarily approving the settlement, ordering  
 11         notice of the settlement to be sent to the Class, and setting a date to determine final approval of  
 12         the settlement and a schedule for related filings, notices, and events.

13          Plaintiffs’ motion is made pursuant to Federal Rule of Civil Procedure 23(e) and the  
 14         Order entered by the Court on December 15, 2017. Plaintiffs’ motion is based on this Notice of  
 15         Motion and Motion, the accompanying Memorandum in Support of the Unopposed Motion for  
 16         Preliminary Approval of Class Action Settlement, the Declaration of Daniel L. Berger and all  
 17         exhibits thereto, all pleadings on file, and such other support as may be presented to the Court.

18           **MEMORANDUM IN SUPPORT OF PLAINTIFFS’ UNOPPOSED MOTION FOR**  
 19           **PRELIMINARY APPROVAL OF CLASS ACTION SETTLEMENT**

20          Plaintiffs Charles Des Roches, Sylvia Meyer, and Gayle Tamler Greco (“Plaintiffs”),  
 21         individually and on behalf of those similarly situated, respectfully seek preliminary approval of  
 22         the proposed class action settlement (the “Settlement”). The Settlement, if approved, will provide  
 23         significant monetary and non-monetary relief to people enrolled in health plans administered by  
 24         Defendants California Physicians’ Service dba Blue Shield of California (“BSC”) and Blue  
 25         Shield of California Life & Health Insurance Company (“BSL,” and together with BSC, “Blue  
 26         Shield”), who sought and were denied coverage for residential or intensive outpatient treatment of  
 27         mental health or substance use disorders pursuant to the Magellan Medical Necessity Criteria  
 28         Guidelines in effect from January 1, 2012 to March 5, 2017 (the “MNCGs” or “Guidelines”).

1 Discovery in this litigation has demonstrated that there are approximately 1,373 persons included  
 2 in the class certified by this Court in its Order dated June 15, 2017 (ECF No. 123) (the “Class”).

3 Under the Settlement, Blue Shield and its mental health services administrator, Human  
 4 Affairs International of California (“HAI” and, together with Blue Shield, “Defendants”), have  
 5 agreed to provide significant relief to the Class. Indeed, the relief being provided approximates  
 6 what the Class could have achieved by prevailing at trial and undergoing a complex and  
 7 potentially protracted reprocessing procedure. As explained in more detail below, this is a strong,  
 8 hard-earned settlement that achieves the fundamental objectives of the lawsuit while fairly  
 9 compensating Class members for the alleged injuries they suffered.<sup>1</sup>

10 Plaintiffs brought this case to challenge the MNCGs. Defendants stopped using the  
 11 challenged Guidelines for members of Blue Shield health benefit plans on March 5, 2017, nine  
 12 months after Plaintiffs filed their complaint. As part of the Settlement, Defendants have agreed  
 13 that they will not resume use of the Challenged Guidelines for members of Blue Shield health  
 14 benefit plans in the future. Defendants also have agreed, as part of the Settlement, to distribute to  
 15 the appropriate clinical review personnel conducting medical necessity reviews for members of  
 16 Blue Shield health benefit plans (whether employees or contractors of Defendants) a bulletin  
 17 stating that previous denials of Class members’ coverage requests shall not be relied upon to  
 18 support any future denial of coverage requests on the basis of lack of medical necessity. This  
 19 relief provides a substantial benefit to all Class members. As a result of the Settlement, neither  
 20 Class members nor any other participant or beneficiary in plans administered by Blue Shield will  
 21 ever suffer denials of coverage for residential or intensive outpatient treatment on the basis of the  
 22 allegedly defective MNCGs challenged by Plaintiffs in this case, nor will Class members be  
 23 prejudiced in the future in the event that they submit coverage requests for mental health or  
 24 substance use disorder treatment services.

25 Moreover, while this case has never been primarily about monetary relief, Plaintiffs

---

26 <sup>1</sup> Defendants do not oppose this motion and support preliminary approval of the Settlement, but  
 27 they have not endorsed or consented to Plaintiffs’ characterizations of the lawsuit or any other  
 content in this memorandum.

1 obtained Defendants' agreement to make a \$7,000,000 payment to the Class. This outcome is  
 2 more than a fair and adequate result given that, in the lawsuit, the Class did not seek Court-  
 3 ordered benefit payments from Defendants. For the reasons explained below—including that  
 4 denials of some Class members' requests for coverage may have been upheld on reprocessing,  
 5 and that some Class members may not have been entitled to any benefit payment at all—this  
 6 compensation approximates the monetary relief the Class could have achieved following trial and  
 7 approval during reprocessing.

8       The proposed settlement easily satisfies the standards for preliminary approval under Rule  
 9 23 of the Federal Rules of Civil Procedure. Preliminary approval should be granted.

10 **I. SUMMARY OF THE CASE.**

11       **A. Pleadings**

12       As alleged by Plaintiffs, this case arises out of Defendants' creation, adoption, and use of  
 13 medical necessity rules (*i.e.*, the MNCGs) that allegedly improperly restricted coverage for  
 14 residential and intensive outpatient treatment of mental health and substance use disorders more  
 15 than generally accepted professional standards would permit. Plaintiffs allege that, by employing  
 16 the MNCGs to assess their coverage requests for residential or intensive outpatient treatment,  
 17 Defendants used an improper standard, in violation of the uniform terms of Class members'  
 18 health plans (which require use of "generally accepted professional standards" in making medical  
 19 necessity determinations) and the Employee Retirement Income Security Act of 1974 ("ERISA").

20       Plaintiffs are three participants in health plans administered by Blue Shield who submitted  
 21 coverage requests while the MNCGs were in effect (January 1, 2012 through March 5, 2017) for  
 22 residential or intensive outpatient treatment of mental health or substance use disorders on behalf  
 23 of their children.<sup>2</sup> Defendants denied Plaintiffs' coverage requests, and subsequent appeals, under

---

24       <sup>2</sup> The definition of the Class as certified by the Court does not terminate on March 5, 2017, but  
 25 includes participants and beneficiaries denied coverage for the relevant levels of care "between  
 26 January 1, 2012 and the present." *See* ECF No. 123 at 39. Because Class membership is limited to  
 27 participants and beneficiaries denied coverage under one of the challenged Guidelines, *see id.*,  
 28 and Defendants abandoned the challenged Guidelines for members of Blue Shield health benefit  
 plans on March 5, 2017, any denial of coverage issued after March 5, 2017 does not fall into the  
 definition of the Class as certified.

1 the challenged Guidelines. Plaintiffs filed this lawsuit on May 26, 2016, alleging that Defendants'  
 2 creation, adoption, and use of the Guidelines violated ERISA and the terms of their health plans  
 3 because the Guidelines do not comport with generally accepted professional standards, seeking an  
 4 order requiring Defendants to reprocess their coverage requests under new guidelines comporting  
 5 with generally accepted professional standards, and enjoining Defendants from using the  
 6 MNCGs.

7 Defendants answered the initial complaint on August 5, 2016. Plaintiffs filed the First  
 8 Amended Complaint ("FAC") on September 29, 2016. Defendants answered the FAC on October  
 9 13, 2016. In their answers, Defendants denied all liability and asserted numerous affirmative  
 10 defenses.<sup>3</sup>

11       **B. Discovery**

12       The parties engaged in fact discovery from August 22, 2016 to July 28, 2017.<sup>4</sup> During the  
 13 fact discovery period, Plaintiffs served seven sets of requests for production of documents  
 14 ("RFPs") on BSC, five sets of RFPs on BSL, and six sets of RFPs on HAI; five sets of  
 15 interrogatories on BSC, four sets of interrogatories on BSL, and four sets of interrogatories on  
 16 HAI; and two sets of requests for admission ("RFAs") on BSC, two sets of RFAs on BSL, and  
 17 one set of RFAs on HAI. Defendants produced, and Plaintiffs reviewed and analyzed, copious  
 18 datasets and over 550,000 pages of documents responsive to Plaintiffs' RFPs. Plaintiffs deposed a  
 19 total of fourteen (14) current or former employees of Defendants (two of whom appeared for  
 20 deposition on two separate dates each). Plaintiffs also attended the depositions of, and cross-  
 21 examined, three (3) third-party witnesses noticed by Defendants.

22       All three Plaintiffs appeared for deposition and each responded to three sets of RFPs from  
 23 Blue Shield and one set of RFPs from HAI, as well as one set of interrogatories from Blue Shield

---

24       <sup>3</sup> Plaintiffs also named Magellan Health Services of California, Inc.-Employer Services as a  
 25 defendant. That defendant was voluntarily dismissed from this litigation on April 12, 2017 (ECF  
 26 No. 94).

27       <sup>4</sup> Pursuant to a stipulation, on July 28, 2017, the Court extended fact discovery with respect to the  
 28 negotiation and production of data and documents relating to the applicability of ERISA to  
 potential Class members' plans. See ECF No. 148.

1 and one set of interrogatories from HAI. Plaintiffs produced nearly 12,000 pages of documents  
 2 responsive to Defendants' RFPs.

3 Throughout the fact discovery period, a number of complex discovery disputes arose.  
 4 These disputes concerned, *inter alia*, the scope of the parties' requests, the relevance of  
 5 responsive documents, the applicability of the attorney work-product doctrine and/or the attorney-  
 6 client privilege and the fiduciary exception thereto, and the alleged burden of producing  
 7 responsive documents and data. The parties successfully resolved the vast majority of these  
 8 disputes without requiring judicial intervention, in the process producing hundreds of pages of  
 9 discovery-related correspondence and dedicating dozens of hours to telephonic and in-person  
 10 meet-and-confer sessions. Magistrate Judge Lloyd resolved the small number of discovery  
 11 disputes the parties could not informally resolve. *See* ECF Nos. 144, 150, 153, 158, 188.

12 The parties engaged in expert discovery through October 20, 2017.<sup>5</sup> On August 4, 2017,  
 13 the parties offered opening expert reports. Plaintiffs offered the expert reports of Dr. Eric Plakun,  
 14 Dr. Marc Fishman, and Dr. Louis Kraus,<sup>6</sup> and on September 1, 2017, each of these experts also  
 15 submitted rebuttal reports responding to reports submitted by Defendants' experts. Defendants  
 16 offered, on August 4, 2017, the reports of Dr. Stuart Gitlow, Dr. John Chamberlain, and Dr.  
 17 Thomas Goddard, and on September 1, 2017, each of these experts also submitted rebuttal reports  
 18 responding to reports submitted by Plaintiffs' experts. On September 1, 2017, Plaintiffs offered  
 19 the rebuttal report of Randall H.H. Madry and Defendants offered the rebuttal report of Dr.  
 20 Caitlin Costello. Pursuant to Court order (ECF No. 175), Plaintiffs offered the expert report of  
 21 Adoria Lim on September 15, 2017, and Defendants offered the rebuttal report of Dr. Bruce Deal  
 22 on September 29, 2017. The parties completed expert depositions between September 5, 2017 and  
 23

---

24 <sup>5</sup> The Court permitted Plaintiffs to depose Defendants' economic expert, Dr. Bruce Deal, by  
 25 October 20, 2017, to accommodate his response to the submission of the expert report of  
 26 Plaintiffs' substitute economic expert, Adoria Lim. *See* ECF No. 175. By stipulation, the Court  
 27 permitted Defendants to depose Ms. Lim on October 19, 2017. *See* ECF No. 190.

28 <sup>6</sup> Plaintiffs also offered the expert report of Dr. Steven Henning on August 4, 2017, which was  
 29 subsequently withdrawn and replaced, with Court approval, by the report of Adoria Lim. *See* ECF  
 30 No. 175.

1       October 20, 2017. Each of the expert witnesses offering reports appeared for deposition.

2           **C. Motion Practice**

3       In addition to intensive discovery practice, this litigation involved substantial motion  
 4 practice. Plaintiffs moved for class certification, accompanied by over 1,500 pages of supporting  
 5 materials, on April 1, 2017. Defendants' opposition was filed on May 1, 2017. Plaintiffs filed  
 6 their reply brief on May 15, 2017. The Court granted the motion, except with regard to  
 7 prospective relief,<sup>7</sup> on June 15, 2017 (ECF No. 123). Defendants petitioned the Ninth Circuit  
 8 Court of Appeals pursuant to Rule 23(f) on June 29, 2017, to which Plaintiffs responded on July  
 9 10, 2017. On July 18, 2017, Defendants sought leave to file a reply in further support of their  
 10 Rule 23(f) petition, which Plaintiffs opposed on July 28, 2017. The Ninth Circuit declined  
 11 Defendants' petition on October 10, 2017.

12       Defendants moved for summary judgment on October 31, 2017, which Plaintiffs opposed,  
 13 filing over 700 pages of evidence, on November 14, 2017. Defendants replied on November 21,  
 14 2017.<sup>8</sup> On the same schedule, Plaintiffs moved to exclude two of Defendants' experts (Drs.  
 15 Gitlow and Costello) pursuant to Rule 37 and/or *Daubert v. Merrell Dow Pharmaceuticals, Inc.*,  
 16 509 U.S. 579 (1993).

17       On August 25, 2017, Plaintiffs also moved for leave to substitute their initial economic  
 18 expert, Dr. Steven Henning, with Adoria Lim, which Defendants opposed on September 6, 2017.  
 19 Plaintiffs replied on September 8, 2017, and the Court granted Plaintiffs' request to substitute  
 20 their economic expert on September 13, 2017.

21           **D. Mediation**

22       The Settlement is the result of an extensive private mediation process. The parties

24       <sup>7</sup> As noted above, on March 5, 2017, after Plaintiffs filed suit, Defendants abandoned the MNCGs  
 25 for residential and intensive outpatient treatment for members of Blue Shield health benefit plans.  
 26 ECF No. 123 at 36. This Court, therefore, held Plaintiffs lacked standing to enjoin Defendants  
 27 from using the MNCGs. *Id.* at 36-37. As part of the Settlement, Defendants commit not to return  
 28 to the use of the Challenged Guidelines for members of Blue Shield health benefit plans.

<sup>8</sup> Subsequently, on December 8, 2017, Defendants filed a shortened version of their opening  
 28 summary judgment brief, pursuant to Court order. See ECF No. 221.

1 engaged JAMS mediator Martin Quinn, Esq., who met personally with counsel and party  
 2 representatives for four day-long sessions in San Francisco, on May 16, October 3, December 11,  
 3 and December 12, 2017. The parties prepared comprehensive mediation statements and continued  
 4 to discuss possible resolutions by telephone and email, with the assistance of Mr. Quinn, in the  
 5 intervals between mediation sessions. As a result of these sessions, and the information obtained  
 6 in connection with them, Plaintiffs were able to evaluate the size of the Class, the monetary value  
 7 of Class members' claims, the risks of continuing to litigate, and the benefits of the proposed  
 8 Settlement.

9         Following back-to-back mediation sessions on December 11 and 12, the parties jointly  
 10 notified the Court that a settlement agreement had been achieved (ECF No. 222).

11 **II. DESCRIPTION OF THE SETTLEMENT.**

12         The proposed settlement has three essential components: (1) non-monetary relief  
 13 benefiting the Class as a whole, consisting of Defendants' agreement not to revert to the  
 14 challenged Guidelines for members of Blue Shield health benefit plans and Defendants' issuing to  
 15 appropriate personnel a bulletin conveying that previous denials of Class members' coverage  
 16 requests shall not be relied upon to support any future denial of coverage requests on the basis of  
 17 lack of medical necessity; (2) payment by Defendants of a \$7 million "Settlement Amount" to be  
 18 allocated among members of the Class according to the Plan of Allocation; and (3) a release of  
 19 certain claims against Defendants. The Settlement will be administered by a third-party  
 20 administrator (the "Settlement Administrator"), subject to Court approval.

21         The Class includes all persons meeting the following criteria:

22         All participants or beneficiaries of a health benefit plan administered by either Blue Shield  
 23 defendant and governed by ERISA whose request for coverage (whether pre-authorization,  
 24 concurrent, post-service, or retrospective) was denied, in whole or in part, between January 1,  
 25 2012 and the present, based upon the Magellan Medical Necessity Criteria Guidelines for any  
 26 of the following levels of care: (i) Residential Treatment, Psychiatric; (ii) Residential  
 27 Treatment, Substance Use Disorders, Rehabilitation; (iii) Intensive Outpatient Treatment,  
 28 Psychiatric; or (iv) Intensive Outpatient Treatment, Substance Use Disorders, Rehabilitation.  
                 Excluded from the Class are Defendants, their parents, subsidiaries, and affiliates, their  
                 directors and officers and members of their immediate families; also excluded are any federal,  
                 state, or local governmental entities, any judicial officers presiding over this action and the  
                 members of their immediate families, and judicial staff.

1                   **A. Non-monetary Relief**

2                   Class Counsel negotiated for non-monetary relief similar to what the Class sought to  
 3 achieve at the start of the litigation. As noted above, Defendants stopped using the challenged  
 4 Guidelines for members of Blue Shield health benefit plans to adjudicate coverage requests for  
 5 residential and intensive outpatient treatment on March 5, 2017—approximately nine months  
 6 after Plaintiffs filed this litigation. Pursuant to the Settlement, Defendants have agreed not to use  
 7 the challenged Guidelines in the future for members of Blue Shield health benefit plans.

8                   Accordingly, as a result of the Settlement, neither Class members nor any other participant or  
 9 beneficiary in plans administered by Blue Shield will ever suffer denials of coverage for  
 10 residential or intensive outpatient treatment on the basis of the allegedly defective MNCGs  
 11 challenged by Plaintiffs in this case. This Settlement remedy mirrors Plaintiffs' original objective  
 12 of stopping Defendants from using the MNCGs and, after they abandoned them post-lawsuit,  
 13 from returning to them.

14                  Plaintiffs also have obtained Defendants' agreement to issue a bulletin to all personnel,  
 15 whether employees or contractors, who conduct medical necessity reviews. This bulletin will  
 16 state that previous denials of Class members' coverage requests shall not be relied upon to  
 17 support any future denial of coverage requests on the basis of lack of medical necessity. At trial,  
 18 Plaintiffs would have sought an order requiring Defendants to reprocess Class members' denied  
 19 requests for coverage. If they had prevailed at trial, and a Class member's denial was overturned  
 20 during reprocessing, their file would have reflected that reversal. This remedy achieves a similar  
 21 result by preventing the use of a past denial during future coverage determinations.

22                   **B. The Settlement Payment and Plan of Allocation**

23                  Defendants have also agreed to pay a total of \$7 million to resolve this litigation. Pursuant  
 24 to the Settlement, within twenty (20) days after preliminary approval, Defendants will pay  
 25 \$150,000 of the Settlement Amount to cover administrative costs. Within thirty (30) days after  
 26 the final approval order becomes non-appealable (or any appeals are resolved), Defendants will  
 27 pay the rest of the Settlement Amount and the Settlement Administrator will begin processing  
 28 payments to Class members.

1       The Settlement Fund will consist of the Settlement Amount, less notice and administration  
 2 costs, any named plaintiff incentive awards, and attorneys' fees and reimbursement of litigation  
 3 costs approved by the Court. *Id.*, sec. 117. The Settlement Administrator will distribute the  
 4 Settlement Fund to members of the Class according to the Plan of Allocation, attached as Exhibit  
 5 A to the Notice of Proposed Settlement of Class Action and Fairness Hearing (Exhibit B to the  
 6 Stipulation of Settlement (Declaration of Daniel L. Berger ("Berger Decl."), Exhibit A)). *Id.*, sec.  
 7 2.14.

8       The Plan of Allocation distributes the Settlement Fund in a way that prioritizes  
 9 reimbursement for those Class members who actually received the treatments for which coverage  
 10 was sought and denied, while also ensuring that all Class members—even those who did not  
 11 receive treatment following a denial of coverage—are otherwise awarded fair and equal  
 12 compensation for requests for coverage that were allegedly improperly denied. Class members  
 13 whose requests for coverage were denied by Defendants, and who nevertheless obtained the  
 14 treatment for which coverage was denied, will be entitled to the amount that Defendants' data  
 15 shows they would have been paid had the request been approved<sup>9</sup> or an amount based on what  
 16 Defendants would have paid for the treatment days,<sup>10</sup> until all such claims are paid or 75% of the  
 17 Settlement Fund is consumed.<sup>11, 12</sup> After those payments are made, all Class members, including  
 18

---

20  
 21       <sup>9</sup> This amount, which is referred to as the Allowed Amount for Services Received in the Plan of  
 22 Allocation, may actually be greater than what Class members would have been paid, because it  
 23 does not account for, for example, co-payments or deductibles.

24  
 25       <sup>10</sup> The Plan of Allocation discusses the various ways the per day treatment will be calculated in  
 26 Paragraph D(1). For example, if an individual does not have an Allowed Amount for Services  
 27 Received, a rate agreed to by Plaintiffs and Defendants based on Defendants' claims and  
 28 reimbursement data for the level of care for the year in which the denial occurred will be used.

29  
 30       <sup>11</sup> To determine who belongs in this first category, the Plan of Allocation relies, initially, on  
 31 claims data maintained by Defendants. However, Class members will also be given an  
 32 opportunity to submit documentation showing that they obtained the treatment for which  
 33 coverage was denied. This opportunity accounts for the possibility that Defendants' data may be  
 34 incomplete, and the possibility that individuals, after being denied coverage at the start of  
 35 treatment, did not submit a post-service claim after receiving treatment.

1 those who did not obtain the treatment for which coverage was denied, will share equally in the  
 2 remainder of the Settlement Fund, which will be at least 25% of the Settlement Fund. This second  
 3 payment will ensure that those Class members whose requests for coverage were denied and who  
 4 did not go forward with treatment will receive a uniform minimum payment in recompense for  
 5 the alleged violation of their entitlement to benefits under their health plans.  
 6

7 **C. Release of Certain Claims against Defendants and Other Restrictions on Actions by  
 Class Members**

8 Upon the Effective Date of the Settlement, the Class members will release Defendants  
 9 (and related entities) from the Released Claims, which are defined in part as follows: “[A]ny  
 10 claims, rights, and liabilities of any nature, including but not limited to, actions, claims, demands,  
 11 causes of action, obligations, damages, debts, charges, attorneys’ fees, costs, arbitrations,  
 12 forfeitures, judgments, indebtedness, liens and losses of any kind, source or character, whether  
 13 arising out of federal or state law, whether known or unknown, whether asserted or unasserted,  
 14 arising on or before the Effective Date, whether in contract, express or implied, tort, at law or in  
 15 equity or arising under or by virtue of any statute or regulation, by reason of, or arising out of  
 16 Defendants’ development, adoption, and application of the Challenged Guidelines during the  
 17 Class Period (including ‘Unknown Claims’ as defined in the Settlement).” *Id.*, sec. 1.14. Class  
 18 members agree to release Unknown Claims pursuant to a waiver of Cal. Civ. Code § 1542, as  
 19 specified in the Settlement Agreement.

20 **D. Other Provisions**

21 In addition to the foregoing, the proposed Settlement also contains the following  
 22 provisions:

23 1. Class List and Class Claims Data. In order to effectuate the Settlement, including

---

25 <sup>12</sup> As set forth in the Plan of Allocation, if the payments, based on Treatment Amounts, to this  
 26 category of Class members would exceed 75% of the Settlement Fund, then 75% of the  
 27 Settlement Fund will be allocated to this category of Class members and each Class member in  
 this category will receive a portion of 75% of the Settlement Fund pursuant to the pro rata  
 formula described in the Plan of Allocation.

1 providing notice to Class members and implementing the Plan of Allocation, Defendants must  
2 provide the Class List and Class Claims Data to Class Counsel and the Settlement Administrator.  
3 Such information—which includes personally identifying information about each Class member  
4 as well as information regarding Class members' mental health and substance use disorder  
5 treatments—is necessary in order to (1) confirm mailing addresses of Class members and  
6 distribute the notice documentation; (2) determine what payment amount each Class member is  
7 entitled to; (3) evaluate any supplemental documentation provided by any Class member to  
8 demonstrate that he or she was billed for treatment services for which coverage was denied, and  
9 decide whether, and by how much, the Class member's payment amount must be adjusted; and  
10 (4) advise any Class members who contact Class Counsel and/or the Settlement Administrator as  
11 to their rights and options in connection with the Settlement.

12 Within thirty days after the Preliminary Approval Order is entered by the Court, and  
13 subject to Court approval as provided in 45 C.F.R. § 164.512(e)(1)(i), Defendants will provide  
14 Class Counsel and the Settlement Administrator with the Class List for the purpose of  
15 effectuating notice of the Settlement. As part of the Notice process, the Parties will address any  
16 42 C.F.R. Part 2 concerns, related to the disclosure of patient information regarding diagnosis,  
17 treatment, or referral for treatment for a substance use disorder created by a program subject to  
18 the confidentiality restrictions set forth in 42 CFR Part 2 ("Part 2 Information").

19 The parties intend to use the Class List to distribute a notice to *all* Class members,  
20 substantially in the form reflected in the "Notice of Proposed Settlement of Class Action and  
21 Fairness Hearing" ("Notice of Settlement") attached as Exhibit B to the Stipulation of Settlement  
22 (Berger Decl. Ex. A), informing them that their data will be disclosed by Defendants to Class  
23 Counsel and the Settlement Administrator in order to implement the Settlement, unless the Class  
24 member contacts the Settlement Administrator to object to such disclosure within thirty-five (35)  
25 days. Any objection to such disclosure will be honored, and Defendants will withhold the Class  
26 Claims Data pertinent to objecting Class members from disclosure to Class Counsel and the  
27 Settlement Administrator. Because Class Counsel and the Settlement Administrator would not be  
28

1 able to determine what amount to award a Class member who objects to disclosure—because, for  
 2 example, they will not be able to determine whether the Class member was denied for coverage at  
 3 the pre-authorization or post-service stage—any Class member who objects to disclosure will be  
 4 entitled to the minimum amount. This information is conveyed in the Notice of Settlement.

5       Forty (40) days after the issuance of the Notice of Settlement (and thus five (5) days after  
 6 the expiration of the period in which Class members may object to disclosure of his or her Class  
 7 Claims Data), the parties intend to jointly seek a separate order authorizing Defendants to release  
 8 the Class Claims Data. Defendants will not produce Class Claims Data to Class Counsel or the  
 9 Settlement Administrator unless and until this Court orders such disclosure pursuant to 42 C.F.R.  
 10 § 2.64, and any Class members protected by 42 C.F.R. Part 2 have been given adequate notice  
 11 and an opportunity to object to such disclosure.

12       Within five (5) days of the Court entering an order authorizing the disclosure of the Class  
 13 Claims Data, Defendants will provide the Class Claims Data to Class Counsel and the Settlement  
 14 Administrator.

15       2.       Notice to the Class. Section 2.4 of the Settlement Agreement provides for the  
 16 Settlement Administrator to send out the Notice of Settlement to members of the Class within  
 17 sixty (60) days after the Preliminary Approval Order is entered by the Court. Defendants will  
 18 provide the Settlement Administrator the names and last known addresses of all Class members  
 19 and the Settlement Administrator will use its best efforts to locate and notify Class members. As  
 20 further described in section IV, *infra*, notice will occur principally by first-class U.S. Mail,  
 21 supported by a settlement website and toll-free telephone number.

22       Under Section 2.6, if the Court approves the Settlement, members of the Class will have  
 23 the opportunity to opt out of the Class or object to the Settlement. The notice explains the opt-out  
 24 and objection procedures. To be valid, the request for exclusion from the Class or objection to the  
 25 Settlement must be received by the Settlement Administrator within sixty (60) days after the  
 26 Notice of Settlement is issued.

27       3.       Incentive award for named Plaintiffs. The Settlement Agreement provides that  
 28

1 Plaintiffs may request that the Court approve an incentive award for the named Plaintiffs in the  
 2 amount of \$20,000 each, to reflect their important contributions to this case, including their  
 3 service as class representatives. *Id.*, sec. 1.8.

4       4.     Attorneys' fees and reimbursement of litigation expenses. Class Counsel will be  
 5 paid a portion of the Settlement Amount as their attorneys' fees in an amount to be approved by  
 6 the Court, as well as reimbursement for actual expenses incurred in litigating the case. Class  
 7 Counsel intends to seek reimbursement of expenses in an amount not to exceed \$850,000. With  
 8 respect to attorneys' fees, Plaintiffs' retainer agreements permit Class Counsel to seek an award  
 9 in the amount of their total lodestar. As of the date of this filing, Class Counsel have a total  
 10 lodestar of over \$8,000,000. Any award of attorneys' fees will, therefore, result in a negative  
 11 multiplier being applied to Class Counsel's reasonable hourly rates. Class Counsel intends to seek  
 12 a fee award of one-third (33.3%) of the amount remaining after deduction of litigation costs,  
 13 notice and administration costs, and any incentive award to the named Plaintiffs.

14       To ensure Class members have adequate time to consider Class Counsel's request for  
 15 attorneys' fees and reimbursement of litigation costs, as well as any incentive award to the named  
 16 Plaintiffs, Class Counsel will file a motion for an award of attorneys' fees, reimbursement of  
 17 litigation costs, and an incentive award to the named Plaintiffs (the "Fee Application") no later  
 18 than twenty-one (21) days prior to the deadline for objections to the Settlement and requests for  
 19 exclusion from the Class.

20       **III. THE PROPOSED SETTLEMENT SATISFIES THE REQUIREMENTS FOR**  
 21 **PRELIMINARY APPROVAL.**

22       The proposed Settlement is extraordinary in several respects and easily meets the  
 23 standards for preliminary approval. It secures the essential form of relief that Plaintiffs sought  
 24 when they initiated suit: namely, relief assuring that Defendants will not use the challenged  
 25 Guidelines for members of Blue Shield health benefit plans in the future, and a bulletin serving to  
 26 prevent the allegedly improper denials from affecting Class members on a going forward basis. In  
 27 addition, the Settlement provides Class members with substantial monetary payments. Especially  
 28 when compared to the type of relief that would be available if the Class prevails at trial (e.g., a

1 reprocessing order that would require Defendants to re-adjudicate previously denied requests for  
 2 coverage but would not require that any such requests be deemed covered), this result is superior.  
 3

#### 4       **A. Legal Standard for Preliminary Approval**

5       Judicial review of proposed class action settlements has three phases. First, the Court must  
 6 determine whether the proposed settlement merits preliminary approval. If so, class members then  
 7 receive notice describing the settlement. Thereafter, the Court decides whether to grant final  
 8 approval. *See Nat'l Rural Telecomms. Coop. v. DirecTV, Inc.*, 221 F.R.D. 523, 525 (C.D. Cal.  
 9 2004).

10     Preliminary approval of a class action settlement is appropriate “if the proposed settlement  
 11 appears to be the product of serious, informed, noncollusive negotiations, has no obvious  
 12 deficiencies, does not improperly grant preferential treatment to class representatives or segments  
 13 of the class, and falls within the range of possible approval.” *Ma v. Covidien Holding, Inc.*, No.  
 14 SACV 12-02161-DOC, 2014 WL 360196 at \*4 (C.D. Cal. Jan. 31, 2014) (internal quotation  
 15 marks and citations omitted). Courts “put a good deal of stock” in such class settlements.  
 16 *Rodriguez v. West Publ'g Corp.*, 563 F.3d 948, 965 (9th Cir. 2009), *Hanlon v. Chrysler Corp.*,  
 17 150 F.3d 1011, 1027 (9th Cir. 1998). And settlement of class actions prior to trial is strongly  
 18 favored. *See, e.g., Churchill Village, LLC v. Gen'l Elec. Co.*, 361 F.3d 566, 576 (9th Cir. 2004).

19     At the preliminary approval stage, a court must determine whether a proposed settlement  
 20 is within the range of possible approval to justify notice being sent to class members. *Ma*, 2014  
 21 WL 360196, at \*4 (“The question for preliminary approval of a settlement is whether it is within  
 22 the range of reasonableness.”) (internal quotation and citation omitted); *Acosta v. Trans Union,*  
 23 *LLC*, 243 F.R.D. 377, 386 (C.D. Cal. 2007) (“To determine whether preliminary approval is  
 24 appropriate, the settlement need only be potentially fair, as the Court will make a final  
 25 determination of its adequacy at the hearing on Final Approval, after such time as any party has  
 had a chance to object and/or opt out.”).

#### 26       **B. The Proposed Settlement Satisfies the Standard for Preliminary Approval**

27     The Settlement Agreement (1) is the product of serious, informed, non-collusive  
 28

1 negotiations; (2) has no obvious deficiencies; (3) does not improperly grant preferential treatment  
 2 to class representatives or segments of the Class; and (4) falls within the range of possible  
 3 approval. It therefore merits preliminary approval.

4 **1. The Settlement is the product of arm's-length negotiations**

5 The parties reached agreement on a proposed resolution of the case after over eighteen  
 6 months of intensive litigation, the completion of fact and expert discovery, and months of arm's-  
 7 length negotiations facilitated by a private mediator. Plaintiffs obtained and analyzed copious  
 8 amounts of data and hundreds of thousands of pages of documents, submitted and received expert  
 9 evidence, and took twenty (20) total depositions (including fact and expert witnesses), ensuring  
 10 that Plaintiffs are well informed of the risks and prospects of continued litigation. The parties met  
 11 for four day-long in-person mediation sessions with Mr. Quinn, and communicated extensively,  
 12 with Mr. Quinn's assistance, in the intervals between these sessions, as explained above.

13 **2. The Settlement has no obvious deficiencies**

14 As noted above, the relief obtained by Plaintiffs in the Settlement is remarkable in that it  
 15 secures the essential relief Plaintiffs sought to accomplish in this litigation—an assurance that  
 16 Defendants will not return to the challenged Guidelines for members of Blue Shield health benefit  
 17 plans in the future. The Settlement relief also ensures that the allegedly improper denials of  
 18 coverage, made on the basis of the challenged Guidelines, will not prejudice Class members in  
 19 the event that they submit coverage requests for mental health or substance use disorder treatment  
 20 services in the future. That the Settlement provides Class members with substantial monetary  
 21 payments without requiring a cumbersome reprocessing procedure (and thus also avoids the  
 22 possibility of denial on reprocessing, which would result in non-payment of Class members'  
 23 requests for coverage *even if Plaintiffs succeeded at trial*) demonstrates that this Settlement is  
 24 more than adequate.

25 While Plaintiffs believe they have a strong likelihood of prevailing on the merits at trial,  
 26 Plaintiffs acknowledge that Defendants have litigated this case aggressively and would likely  
 27 seek an appeal after Plaintiffs succeed at trial. Plaintiffs also acknowledge that their case turns, in  
 28 part, on the meaning to which the Court ascribes "generally accepted professional standards," and

1 that Defendants have introduced evidence that the challenged Guidelines do not run afoul of  
 2 generally accepted professional standards under their interpretation of that term. The Settlement  
 3 eliminates the risk that the Court may agree that the MNCGs comply with generally accepted  
 4 professional standards, or that the litigation could end unsuccessfully, with no relief at all for the  
 5 putative Class, on some other basis.

6       Moreover, even if the Class were to prevail at trial, the primary remedy Plaintiffs seek is  
 7 an order requiring Defendants to reprocess the Class members' denied requests for coverage  
 8 under a new set of medical necessity criteria consistent with generally accepted professional  
 9 standards. Some portion of requests for coverage may be denied again after reprocessing.  
 10 Plaintiffs do not concede that a significant portion of requests would be denied on reprocessing  
 11 but recognize this as a risk to Class members' ability to recover. In addition, those Class members  
 12 who were denied coverage at the pre-authorization stage, but never went on to receive the  
 13 treatment for which coverage was denied, would, according to Defendants, not be entitled to  
 14 reprocessing and, even if the Court approved reprocessing for the entire Class, such individuals,  
 15 again according to Defendants, would not be entitled to any monetary relief at all, *even if* their  
 16 requests for coverage were approved on reprocessing. Plaintiffs disagree with Defendants'  
 17 arguments regarding relief, but recognize the litigation risk associated with them.

18       Even if the Court agreed with Plaintiffs' position that reprocessing was necessary and that  
 19 all Class members could recover some amount of money in the event that their requests for  
 20 coverage were approved in reprocessing, the parties would have had to expend significant  
 21 resources discussing (and potentially litigating) details concerning the precise form any  
 22 reprocessing remedy should take, including the kinds of evidence that may be considered, the  
 23 people who would actually perform the reprocessing, and the extent to which anything other than  
 24 application of the facts to Defendants' new criteria would be allowed.

25       Resolution now pursuant to the Settlement eliminates all of these risks, uncertainties, and  
 26 costs, and gives the *entire* Class the benefit of the time value of a sum determined by the Plan of  
 27 Allocation. By receiving money sooner, Class members can earn interest on, invest, or spend the  
 28

1 money, rather than being forced to wait until resolution of the litigation, and completion of the  
 2 reprocessing phase, to receive an amount that might well be less than what they stand to receive  
 3 under the Settlement. *Reynolds v. Beneficial Nat'l Bank*, 288 F.3d 277, 284 (7th Cir. 2002) ("To  
 4 most people, a dollar today is worth a great deal more than a dollar ten years from now.").

5

6           **3. The Settlement Agreement does not improperly grant preferential  
                  treatment to the named Plaintiffs or segments of the Class**

7           The Settlement treats Class members fairly and in accordance with their losses. First, all  
 8 Class members will benefit from Defendants' agreement not to revert to the challenged  
 9 Guidelines, and from the bulletin as to their prior denials on the basis of the Guidelines.

10          Second, the Plan of Allocation provides for distribution to Class members based on a fair  
 11 and reasonable allocation formula that applies to every Class member, including the named  
 12 Plaintiffs, and minimizes administrative costs. Class members who received treatment (whether  
 13 reflected in Defendants' records or in documentation submitted by Class members following  
 14 notice) will receive a share of the Settlement Fund based on the amount of treatment they  
 15 received, and for which payment was denied, for residential or intensive outpatient treatment. For  
 16 those Class members who never obtained the treatment for which coverage was denied, the  
 17 minimum payment reflects a fair approximation of the restitutive value of the alleged violation  
 18 of their entitlement to benefits under their health plans.

19          In addition, the proposed incentive award to the named Plaintiffs reflects their important  
 20 contributions to the successful resolution of this case. Plaintiffs courageously came forward to  
 21 voluntarily make sensitive details about their conditions and experiences with Defendants public  
 22 by bringing the case, in the hope that Defendants would change their practices—or be ordered by  
 23 the Court to do so—for the benefit of other parents and psychiatric/substance use patients. Cases  
 24 about behavioral health treatment cannot succeed without individuals like Mr. Des Roches, Ms.  
 25 Meyer, and Ms. Greco, who willingly cast a light on their own struggles and those of their  
 26 families to help others. Plaintiffs publicly disclosed highly private, personal information to  
 27 vindicate the rights of all persons insured by Blue Shield-administered plans who suffer from  
 28 serious psychiatric and substance use disorders. Each Plaintiff demonstrated extraordinary

1 courage by serving as a named plaintiff and class representative, producing sensitive documents  
 2 and answering deeply personal questions in depositions, and made it possible to obtain the  
 3 substantial relief, monetary and non-monetary, that the Settlement provides to the Class as a  
 4 whole. The proposed incentive award is modest in comparison to the public service Plaintiffs  
 5 delivered.

6           **4. The Settlement falls within the range of possible approval**

7           Finally, the Settlement falls within the range of possible approval. First, as discussed  
 8 above, the non-monetary relief is significant, valuable relief for anyone covered by Blue Shield-  
 9 administered health plans. Second, as discussed above and in the Plan of Allocation, the  
 10 Settlement pays Class members who received treatment for which coverage was denied a  
 11 distribution approximating what the Class member would have been paid by Defendants had his  
 12 or her request for coverage been approved. As discussed above, the Class members who were not  
 13 billed for treatment for which coverage was denied will receive a uniform monetary award in  
 14 recompense for the alleged violation of their entitlement to benefits under their health plans when,  
 15 even after trial and reprocessing, such Class members may have been unable to receive significant  
 16 monetary relief. The recovery far exceeds approved recoveries of other approved ERISA class  
 17 action settlements. *See, e.g., In re Syncor ERISA Litig.*, No. 03-2446, Dkt. 309 (C.D. Cal. Oct. 22,  
 18 2008) & Dkt. 300 at 9 (8.7% of maximum damages); *In re Fremont Corp. Litig.*, No. 07-2693,  
 19 Dkt. 277 at 10 & Dkt. 286 (C.D. Cal. Aug. 10, 2011) (10.8% of maximum losses); *Boyd v.*  
 20 *Coventry Health Care Inc.*, 299 F.R.D. 451, 463 (D. Md. 2014) (3.2% of maximum damages,  
 21 with an average of \$180 per class member); *Williams v. Rohm & Haas Pension Plan*, 658 F.3d  
 22 629, 634 (7th Cir. 2011) (24.3% of maximum damages); *Mehling v. New York Life Ins. Co.*, 248  
 23 F.R.D. 455, 462 (E.D. Pa. 2008) (20% recovery); *In re WorldCom, Inc. ERISA Litig.*, No. 02-  
 24 4816, 2004 WL 2338151, at \*6 (S.D.N.Y. Oct. 18, 2004) (7% of maximum damages).

25           **IV. THE NOTICE PLAN SATISFIES RULE 23.**

26           Rule 23(e) requires that the Court direct that notice be given to class members who would  
 27 be bound by the Settlement “in a reasonable manner.” For classes certified under Rule 23(b)(1) or  
 28

1 (b)(2), notice must be “appropriate.” Fed. R. Civ. P. 23(c)(2)(A).

2 The notice plan proposed by Plaintiffs satisfies Rule 23. Defendants will provide a Class  
 3 List to Class Counsel and the Settlement Administrator with the names and addresses of the  
 4 members of the Class (without identifying which Class members sought coverage for substance  
 5 use disorder treatments, consistent with 42 C.F.R. Part 2). *See Settlement Agreement*, secs. 1.6,  
 6 2.3. The Settlement Administrator will send the Notice of Settlement directly to the persons on  
 7 the Class List via first class U.S. Mail.<sup>13</sup> *Id.*, sec. 2.4. The Settlement Administrator will also  
 8 establish a settlement website and toll-free telephone number, through which Class members may  
 9 obtain more information about the Settlement and the relief they are likely to receive, and make  
 10 an informed decision about how to proceed. The notice will also provide instructions for  
 11 objecting to the Settlement or seeking exclusion from the Class.<sup>14</sup> The Settlement Administrator  
 12 will file proof of mailing of the Notice of Settlement to Class members no later than seven (7)  
 13 days prior to the Fairness Hearing.

14 Moreover, the notice plan proposed by Plaintiffs ensures that the heightened  
 15 confidentiality protections afforded to certain Class members under 42 C.F.R. Part 2 are  
 16 acknowledged and respected. Under 42 C.F.R. § 2.64, covered persons must be notified of any  
 17 disclosure of their personally identifying information (if such information would identify them as  
 18 recipients of substance use disorder treatments) and given an opportunity to object to such  
 19 disclosure before it occurs. As explained above, the proposed notice informs Class members that  
 20 they may object to the disclosure of the Class Claims Data within 35 days of receiving the Notice  
 21 of Settlement and that, if they do so, their claims data will not be shared with Class Counsel or the  
 22 Settlement Administrator, and they will be entitled to recover the minimum amount.

23

---

24 <sup>13</sup> For people on the Class List whose mailed Notice is returned as undeliverable, the Settlement  
 25 Administrator will use its best efforts to locate updated addresses and send the Notice to such  
 persons at their new addresses.

26 <sup>14</sup> To the extent any party wishes to file papers in further support of final approval of the  
 27 Settlement following the deadline for objections and opt-outs, the proposed schedule  
 contemplates that such papers must be filed no later than ten (10) days prior to the Fairness  
 Hearing.

1           **V. PROPOSED SCHEDULE.**

2           Plaintiffs propose the following schedule for the period leading up to the Fairness Hearing  
 3 at which the court will consider whether to grant final approval to the proposed Settlement.

<u>DATE</u>	<u>EVENT</u>
Day 1	Entry of Preliminary Approval Order
Day 30	Defendants provide Class Counsel with Class List
Day 60	Last day to provide Notice of Settlement to Class members
Day 95	Last day for Class members to object to disclosure of information in Class Claims Data, including under 42 C.F.R. Part 2
Day 99	Last day for Plaintiffs to file papers in support of final approval of Settlement, including Fee Application
Day 100	The parties jointly move for an Order authorizing Defendants to disclose the Class Claims Data (except with respect to any Class member objecting to disclosure of such information, as described below) to Class Counsel and the Settlement Administrator pursuant to 42 C.F.R. § 2.64
Day 120	Last day for Class members to opt out or object to Settlement
10 days before Fairness Hearing	Last day for any party to file papers in further support of final approval of Settlement, including responses to objections
7 days before Fairness Hearing	Settlement Administrator to file proof of mailing of Notice to Class
, 2018	Fairness Hearing concerning final approval of Settlement

15           **CONCLUSION**

16           For the foregoing reasons, the Court should: (i) grant preliminary approval to the proposed  
 17 Settlement Agreement, (ii) approve the proposed schedule concerning notice, opt-out, objection,  
 18 and certain filing deadlines, and (iii) set a hearing for final approval of the Settlement. A  
 19 proposed order is attached as Exhibit B to the Berger Declaration.

21           Dated: January 15, 2018

22           Respectfully submitted,

23           /s/ Daniel L. Berger
